

VMT

LOAD CELL/SENSOR INSULATION TESTER

- Detects Water in Load Cell Cabling
- Low Cost
- Accurate
- Easy to Use
- Batteries/Carrying Case Included
- One Year Warranty

DESCRIPTION:

Moisture can be the cause of calibration errors, drift and instability in strain gage sensors. The LCC VMT is the service technician's tool for detecting moisture quickly and easily. Save time, money and customers by removing the guesswork and more accurately determining the problem.

Easy to use, the LCC VMT is hand-held, with one-button operation. Bright L.E.D.'s indicate the condition of the sensor being tested. A special design uses safe test voltage that will not damage sensitive strain gages and other delicate components.

The LCC VMT is shipped calibrated and ready to use. A convenient carrying case, instructions and batteries are included.
