

Strain Gage or Load Cell Digital *Output* Module (1 channel)

Instruction Sheet

Features

- Bus connections for communication and power supply
- 2 part connectors for field terminals
- D type 9 pin connector for easy communications connection
- Green LED power indicator
- Red LED digital output indicator
- Push switch to simulate digital input
- Option to terminate bus through 120 ohm resistor
- CAN compliant - option
- 3 x screen clamps for EMC termination
- 1 year warranty

Shown with optional enclosure
pn: JAB

Introduction

The function of the DSJ1 is to enable the easy connection of a load cell and a DSC Card(ordered seperately) for communications to a PC or PLC.

Designed to fit one DSC card in a single enclosure, the DSJ1 offers a convenient and practical solution to the installation of digital load cells with platforms, silos and any weighing systems where connection to PC and PLC's is an essential requirement of the system.

Supplied as an OEM device on a single 135 x 73mm PCB, it has options for fitting in an IP65 ABS case (pn: JAB), or to a DIN rail mounted case.

When a DSC card or DCell is fitted to the DSJ1 PCB it will enable the connection of a load cell via a two-part connector, with a five-way two-part connector for the communications output and a D type 9 pin connector, as well as connections for digital inputs and outputs and external temperature sensor.

The communications output connection is RS232, RS485 or CAN.

Notes for installation & preparing for use

For the operational and communication requirements of the DSC card, refer to the DSC User Manual Instructions.

The DSC card is mounted on the main PCB with 3 standoffs. The PCB is supplied with an 8 way two-part connector J2 for the load cell; details of the connections are shown on the layout diagram on the reverse of this sheet.

The D type connector J3 or J1, the 5 way two-part connector provides one-to-one connection to RS232 as well as, RS485 or CAN. LK1 and LK5 provide selection for D Type function i.e RS232 or CAN/RS485 . The J1 connector also provides the power connections. J4 a two-part 3 way connection is provided for connection of a digital input and output. J2 provides connections to the strain gage and external temperature sensor; alternatively an external temperature sensor can be used which can be selected by using LK3.

Connection details are shown on the layout diagram on the reverse of this sheet.

Cable Screening: It is strongly recommended that all cable screens are connected to the screen clamps provided, adjacent to the cable entry points.

A green LED in the center of the PCB provides an indication of power. A red LED indicates a digital output which is selectable using LK4.

A push switch SW1 can be used to simulate a digital input.

Jumper LK2 is used to provide a 120R terminating resistor RS485 or CAN connections.

Load Cell Central

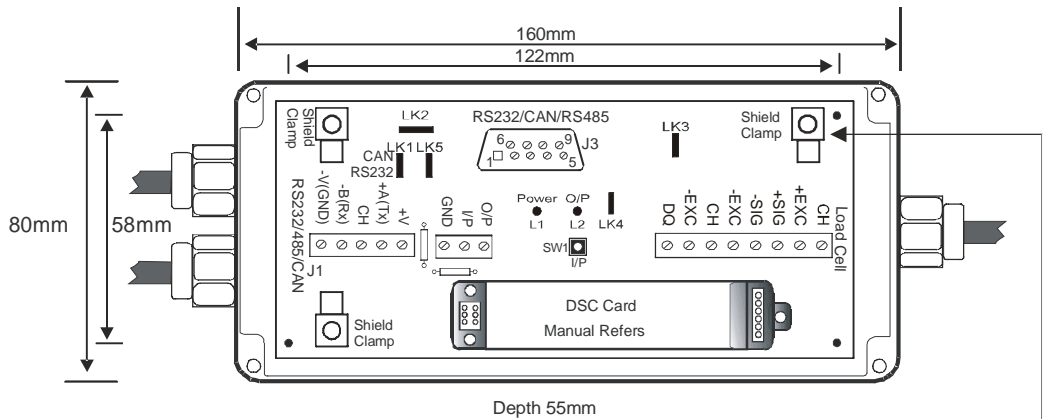

1-800-LOADCEL

Power supply specifications

Supply Voltage 5.8 to 18V dc
Power 0.5 to 1.5 watts

CE & Environmental Approvals

Storage temperature	-20 to +70°C	EMC Emissions	BS EN 55011:1998
Operating temperature	-10 to 50°C	EMC Immunity	BS EN 61000-42:1995
Relative humidity	95% maximum non condensing		BS EN 61000-4-3:2002
Safety/Low Voltage Directive	73/23/EEC amended by 93/68/EEC		BS EN 61000-4-4:2004
EMC Directive	BS EN 61010-1:2001, IEC 1010-1-1990		BS EN 61000-4-11:2004
	89/336/EEC		
	Basic Standard BS EN 61326:1998		

Shield Clamp: Farnell part nos 353- 8266, 853-8278 or 353-8280 depending upon cable size used.
3 x IP65 Gland for cable size 4.5 to 7mm
Fixing Centers of M4: 122 x 58mm

Shield Clamp Detail

Jumper Selection	
LK1 & LK5	Select connections to Dtype, RS232 or CAN/RS485
LK2	Provides 120R terminating Resistor for CAN/RS485
LK3	Selects on board temperature sensor or external device connected to J2
LK4	Connects digital output to Output LED

J1 Connector Detail			J3 D Type Connector Detail			
RS485	CAN	RS232	J3 PIN	RS485	CAN	RS232
+ V	CAN V+	+ V	2	B	CAN L	Tx
A	CAN H	Tx	3	-	-	Rx
CH	CAN SH	CH	5	GROUND	GROUND	GROUND
B	CAN L	Rx	7	A	CAN H	N.C.
-V	CAN GND	GND and -V	-	-	-	-

For RS485 jumper as for CAN LK1 and LK5
